Program Spotlight

Computer Aided Design and Drafting

Delgado Community College offers both certificate and associate degree programs in CADD drafting. CADD drafters prepare blueprints and technical drawings for use by engineers, architect and construction companies. These drawings are used to build commercial and residential buildings, oil and gas pipelines and manufactured products. The drawings of a CADD drafter shows the technical details of the products and structures, specifying dimensions, materials to be used, and procedures and processes to be followed.

Due to the demand for talented CADD drafters who are detail oriented and appreciate the importance of good design has more than tripled. Drafters in Louisiana can earn from \$20 per hour and higher.

The Computer Aided Design and Drafting Associate of Applied Science degree program is accredited by the [Association of Technology, Management, and Applied Engineering \(ATMAE\)](#).

Degree Program

- The College offers an Associate of Applied Science Degree in Computer Aided Design and Drafting.

Certificate Program

- Delgado also offers a Certificate of Technical Studies (C.T.S.) in Computer Aided Design and Drafting.
- Delgado also offers a Certificate of Technical Studies (C.T.C.) in Revit.
- Delgado also offers a Certificate of Technical Studies (C.T.C.) in AutoCAD.

The Louisiana Workforce Commission annual wage for Drafter is \$60,769.

Visit our website for more information about the [Computer Aided and Design Drafting program](#).

Registration

Registration for the Spring 8-week session is now open! For more information [visit our registration page](#).

Summer and Fall 2024 registration opens February 16.

Dual Enrollment

The Dual Enrollment (DE) program at Delgado Community College is designed for students who have the ability to benefit from instruction in either their chosen career path or enrollment in a transferable course at the College in their sophomore, junior, or senior year of high school. Upon successful completion, students will receive high school units and transcribed credit from Delgado Community College.

Program Requirements

For acceptance into the Dual Enrollment Program, students must:

- Have parental and school administration permission.
- Be in "Good Standing" as defined by the student's high school.
- Be a junior or senior; in some instances, sophomores may be eligible.
- Be eligible for course(s) per ACT score or Delgado placement test scores.
- Students wishing to take courses that transfer to other colleges (Courses listed on the Articulation Matrix) must meet the Board of Regents Academic Affairs Policy 2.22 Dual Enrollment Requirements (at minimum a 2.5 Grade Point Average and ACT Composite Score of 19 with English Subscore of 18 and Math Subscore of 19) and meet the course(s) of interest's prerequisite and/or corequisite requirements for entry into those courses.
- Students wishing to take Technical/Work Skills courses (Courses NOT listed on the Articulation Matrix) must have at minimum a 2.0 Grade Point Average and meet the course(s) of interest's prerequisite and/or corequisite requirements for entry into those courses.

For the 2023 - 2024 Academic School Year

Students interested in enrolling in General Education Courses or Courses found of the Master Course Articulation Matrix must meet the Louisiana Board of Regent's 2020-2021 Emergency Interim Policy for Dual Enrollment (at minimum students need a 2.5 GPA and meet the approved scores from the approved standardized tests or a counselor recommendation based

on overall student performance and grade trends in the subject) and meet the course of interest's prerequisite and/or corequisite requirements.

Students interested in course(s) not found on the Master Course Articulation Matrix must have a 2.0 GPA on a 4.0 Scale or utilize the Counselor/Teacher Recommendation Form for Technical/Vocational/Non-Matrix Courses and meet the course of interest's prerequisite and/or corequisite requirements.

Benefits/Advantages of Dual Enrollment

- Enter a college or four-year university with college credit thereby saving time and money.
- Receive relevant skills training in high demand, high wage professions.
- Have access to college resources, facilities, and services such as advising, career counseling, and mentoring.

Application Process

Applicants must complete the online application and the printable application before classes can be scheduled. For more information please visit, <https://www.dcc.edu/admissions/dual-enrollment/default.aspx> or contact Kendrick Johnson (kjohns3@dcc.edu) at (504) 671-5037.
