## Honors Program

The Delgado's Honors Program is an academic program designed for the needs and interests of academically advanced and motivated students. The Honors Program devises and delivers in-class and extracurricular academic experiences that

provide a distinctive learning environment for selected students. Under the leadership of Professor Steven Edwards, this program provides opportunities for measurably broader, deeper, and more complex learning-centered and learner-directed experiences

for its students than are available elsewhere in the institution. The honors community itself is composed of carefully selected teachers and students who form a cross- or multi-disciplinary cohort dedicated to achieving exceptional learning and personal standards.
